This application is before the examiner for consideration on the merits.

I. A telephone call is made to Mr. Marshall J. Chick on 17 July 2006 to point out that claims 10 and 17 are duplicated of claims 5 and 10. Mr. Chick allows an examiner amendment if the instant application could be allowed with a cancellation of claims 10 and 17.

II. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Marshall J. Chick on 17 July 2006.

AMENDMENT: Claims 10 and 17 have been canceled.

III. The following is an examiner's statement of reasons for allowance:

(1) Ly et al (6,689,552) disclose, teach and suggest a silver halide photographic material comprising a support having thereon a silver halide

photographic emulsion layer containing (a) a binder and (b) silver halide grains having more than 90 mol% of silver chloride. The grains are first made with mostly silver chloride molecules with the step of depositing on surfaces of the grains with a mercapto group substituted on a heterocyclic compound, Stab(2-5), being read within the general "Formula (S)" as claimed and the next step of depositing of a small amount of silver bromide molecules on the surface of the grains in "EmG1", "EmG2" and "EmG3", "Emr1" and "EmR2". Accordingly, there is no teaching or suggestion that the compound being read within the general "Formula (S)" is in the interiors of the grains being mostly made up of silver chloride molecules. There is also no teaching or suggestion that the compound being read within the general "Formula (S)" is in a binder of the emulsion layer.

(2) Nakahira et al (6,696,236) is cited to show a scanning exposure step.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

III. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoa V. Le whose telephone number is 571-272-1332.

The examiner can normally be reached from 6:30 AM to 4:30 PM on Monday through Thursday and about the same time of most Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached on 571-272-1526.

Applicants may file a paper by (1) fax with a central facsimile receiving number 571-273-8300. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
